BAGSO project: „Neue Rollen für die Zivilgesellschaft in einer „Caring Community“: Innovative Bildung für mehr Lebensqualität und Selbstbestimmung im Alter“ (ERASMUS+ 2016-2017)

Core of the ERASMUS+ mobility project in adult education are two 3-day trainings provided by the Dutch organization LOC - Zeggenschap in zorg, known for its successful development, description and transmission of new educational methods for volunteers in care for many years. LOC's work for the participation of clients in care is based on the vision of a value based long term care and a strong role of older people in need of care.

Each 3-days programme in the Netherlands is aiming to build an international understanding about European values and initiatives toward ageing in dignity and the translation into innovation in education for volunteers active in the field of care.
