

## **DigitalPakt *Alter*** (DigitalPact Older Age)

**A cooperation of the Federal Ministry of Family Affairs,  
Senior Citizens, Women and Youth and BAGSO.**

**Independence and social participation of seniors  
through easy access and safe use of digital devices,  
standards and services.**

# DigitalPakt *Alter*: the network

- Opportunities of digitalisation for the participation of older people.:
  - By expanding the partner network (eleven federal states, partners from business, science, civil society).
  - Through the exchange of knowledge and experience in four thematic semesters and expert conferences.
  - Through "Erfahrungsorte" (places of experience)

# DigitalPakt *Alter*: Accesses on site

- ▶ Creating access to digitalisation for older people:
  - 200 "Erfahrungsorte" across Germany and selection of a further 100 of such experience sites by 2025.
  - Training, counselling and support for the "Erfahrungsorte", as well as networking with each other and with partner organisations.
  - Regional meetings for on-site networking

# Erfahrungsorte - the movie

# Der DigitalPakt *Alter*:

## Further access and information

- Internet platform with good practice examples throughout Germany for the digital skills acquisition of older people:  
[www.digitalpakt-alter.de](http://www.digitalpakt-alter.de)
- Analogue contact point through service hotline

# Project: KI für ein gutes Altern

(Artificial intelligence for a good aging)

- Development of low-threshold learning and experience offers for older people on the subject area of artificial intelligence
  - technology to try out
  - online seminars
- Elaboration of ethical and socio-political questions around AI for senior citizen organizations (e.g. What is AI allowed to do? Where can discrimination occur?)
- Networking
